I am Lena Emediato, artist by heart and architect by formation. I was born in São Paulo, but my heart is from Minas Gerais – together with those of my mother and grandmother, women for whom I have deep admiration.

Today I travel around Brazil, and follow my journey meeting special people who share the same ideals as mine – the love for Brazilian craftwork, for handmade work and for people's stories.

I take inspiration from listening to what is being said on my surroundings, from the taste of food and from the contact with pleasant memories. I transform personal experiences and memories into unique and meaningful pieces – jewelry for the home and body.

Leh is the name of my studio, based in São Paulo.
